

CASPIR Test Preparation

- For county use only -

This is how you prepare the CASPIR mobile app to submit test Incident Reports.

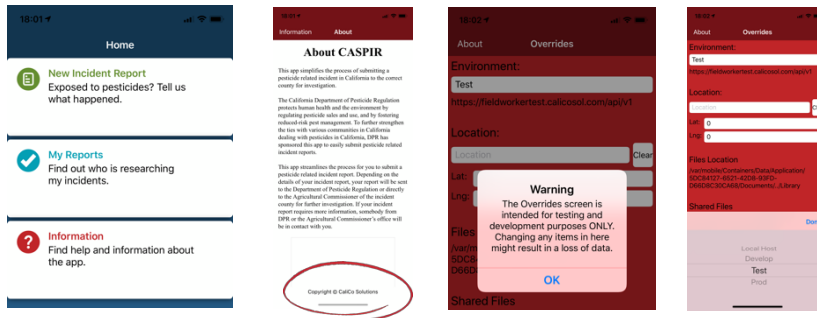

1 Download the Mobile App from the Store

The mobile app is available on the Apple App Store and the Google Play Store for free. Search for 'CASPIR' to find it.

2 Switch the mobile app to TEST mode

- a) Start CASPIR on your phone and navigate to the 'Information' section, then to 'About'.
- b) Find the Copyright notice at the bottom of the screen and tap it 8 times within 2 seconds. This will bring up the super-secret Developer Screen.
- c) Switch the 'Environment' to TEST.

3 Use CASPIR TEST Admin Portal

Use the following URL to access the CASPIR TEST Admin Portal:

<http://caspirtest.calicosol.com>

Use these credentials to logon: caspir@calicosol.com / caspirpass

4 Use CalPEATS TEST

The Incident Reports that are re-routed to the county by CASPIR end up at:

<http://calpeatstest.calicosol.com>

Use these credentials to logon: calico<nn> / 2kegs

Where <nn> is the county number (e.g. 'calico09' for El Dorado county)

NOTES

- Don't forget to switch the mobile app back to PROD once you are done testing
- Lots of people will be using this test environment. Please only use those Incident Report that you have created.
- Be a good citizen and clean your data you don't use anymore, by deleting them.
- Start the description of your Incident Report with 'TEST:'
- We have prepared the test environment as good as possible. To ensure you have the correct permissions in the production system, contact your CalPEATS administrator and refer to the User's Manual.

- If you have any questions, we are only one email away from you: help@caspirapp.org
